St. Luke's Plaza Hospital: November 1999-July 2005

January 2004-July 2005: Admitting representative for Saint Luke's Hospital. Duties included patient registration, insurance verification, hospital bed control, and new employee training.

Reference: Human Resources 816-932-2000

June 2003-December 2003: Weekend admitting supervisor for Saint Luke's Hospital on the Plaza. On-call from 6:00 p.m. Friday to 6:00 a.m. Monday morning and worked two twelve-hour shifts Saturday and Sunday. In this position, I supervised 30 employees in several areas of the hospital including: Emergency Room, Outpatient, and Bed Control Admitting. Job duties included trauma patient contact, billing reconciliation, copay reconciliation, employee scheduling, and employee interviewing.

July 2002-July 2003: Full-time Pre-Registration Specialist in Outpatient Admitting. Primary duties included pre-registration of scheduled outpatients, insurance verification, patient information, document imaging, and patient admission. Position required knowledge of insurance policies, medical diagnoses, and customer service. Other duties included patient greeting at surgery/radiology check-in area and general secretarial.

November 1999-July 2002: Part-time Bed Control Specialist for large Kansas City hospital. Duties included bed control (bed assignments, stat cleans, transfers, discharges), patient admission, teletracking, insurance verification, patient information, scheduling, document imaging, and data entry in areas of the hospital including inpatient, outpatient and emergency services. Position required in-depth knowledge of medical diagnoses and relevant complications. Other duties include general secretarial and patient transportation.

Research Experience, Presentations and Publications:

Summer 1999: Original chemical formulation and experimentation of environmentally friendly pesticides. Investigation was under direction of Dr. Donald E. Gibbs, Rockhurst University Department of Chemistry.

“Structural Modification by Reduction of S-Perillaldehyde to Perillaalcohol using Sodium Borohydride/Florisil, and 4-isopropenylcyclohexanecarboxaldehyde using Sodium Dithionite.”

Fall 1999, Spring 2000: Biological investigation into activity of previously formulated chemical pesticides versus commercially available pesticides.

“The Integrated Design and Development of Insect Feeding Deterrents.”

Paper published and presented with Vicki Mayer and Joseph Woslery at 33rd Annual Missouri Academy of Sciences Columbia, Missouri. Project was under direction of Dr. George O’Connor, Rockhurst University Department of Biology

July 2009-June 2012: Outcomes in Octogenarians with Traumatic Brain Injuries: A Level 1 Trauma Center Experience. Retrospective chart review from 2007-2011 of all TBI patients over the age of 85. Project completed with the assistance of Dr Fausto Vines DO, Program Director. Presented at the 2012 NYCOM Research Fair.

November 2013: Spontaneous Rupture of a Splenic Hamartoma. Published in the Journal of American Surgery. PMID 24165240

January 28, 2019: When Breast Cancer Gets Complicated: A case report of Synchronous Bilateral Breast Cancers with Discordant Tumor Markers from the Primary to Nodes with Findings of a Sentinel Internal Mammary Subpectoral Lymph Node. Published in the Journal of Surgical Case Reports. PMID: 30788096

March 5, 2020: TCD Roadshow. Excelsior Springs, MO. “Trends in Trauma.”

April 07, 2020: Fibroadenoma Containing Lobular Carcinoma in situ, an Unusual Finding in a Normally Benign Mass. Published in the Journal of Surgical Case Reports. PMID: 32280442
